7th International Scientific Conference

ALOPPS 2024

LATEST DEVELOPMENTS IN SPEECH AND LANGUAGE PATHOLOGY,
OCCUPATIONAL THERAPY, PSYCHOLOGY, PEDAGOGICAL SCIENCES AND SOCIAL
WORK

The Theme of the Conference:
**A Changing World: The Role of the Social Sciences in Shaping the
Future**

The Academy for Human Development in Belgrade
Belgrade, November 28-29, 2024.

THE AIM OF THE CONFERENCE

The conference aims to show, theoretically and empirically, the possibilities of social sciences to provide insight into the forms and levels of violence representation in society and the growing need for sustainable changes that will shape the future. In today's rapidly changing world, violence is a huge problem, present in all aspects of life. The topic of violence, prevention and reaction, requires a holistic approach of social sciences in looking at this problem to transform society and create fairer communities where individuals can make progress. The complexity of human society's current state requires scientific reflection that will contribute to ensuring social justice, preventing violence in society, reducing gender inequity and more successful inclusion of vulnerable groups. As in previous years, this year's conference will also be an opportunity to unite the views of academic scientists and insightful practitioners from the country and abroad on the set topics from the mentioned fields.
